DIRECTOR

Resubmitted: September 15, 2008

TO: Rebecca A. Humphries, Director

INFORMATION: Natural Resources Commission

SUBJECT: Restricted and Closed Waters for Fisheries Research (FO-222)

Authority:

The Natural Resources and Environmental Protection Act, 1994 PA 451, as amended, authorizes the Director to provide for better protection and preservation of fish, game and birds.

Discussion and Background:

The following lakes in the Pigeon River Country State Forest were closed to fishing for research purposes from the 1960s through 2007: Lost, West Lost, Section Four, North Twin, South Twin, Ford, and Hemlock. Fisheries Division decided in 2007 that trout studies were no longer needed on these lakes, and thus they should be opened to recreational fishing. These 7 pothole lakes comprise a total area of about 35 acres. In 2007, four of these lakes were added to FO-200, opening them to fishing. However, due to an oversight, the lakes remained in this fisheries order, and we are recommending that they be removed.
